NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE
How point scores are calculated

A competitor is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 2.0 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added or subtracted to the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 2.0 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE
How point scores are calculated

A competitor is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 2.0 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added or subtracted to the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 1.8 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 1.8 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 1.8 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE
How point scores are calculated

A competitor is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 1.8 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added or subtracted to the total points.

NOTE

A bold line in the "Gate" column indicates a change in gate assignment at that point.

Total Point score calculation:

60 points are awarded for jumping the K-point distance. 1.8 points/metre are added to (or subtracted from) the competitor's total points for the jump's difference in length from the K point. If there are gate and/or tangential wind changes during the round, the gate and/or wind compensation points are added to (or subtracted from) the total points.

NOTE
How point scores are calculated

The team total points are the sum of all four individual point scores.

A competitor is awarded 60 points for jumping the K-point distance. For every metre more or less than the K point, a competitor has 1.8 points added or subtracted from his total. In addition, competitors are awarded points for style (for flight, landing and out-run) up to a maximum of 20 per judge. Five judges score each jump, with the highest and lowest scores discarded and the scores of the other three summed and added to the competitor's points for distance. If there are gate and/or tangential wind changes during the round, gate and/or wind compensation points are added or subtracted to the total points.

Teams ranked after the 8th position have competed in the 1st round only.
